MISSOURI STATE PLANT BOARD

Office of Chief Inspector, Carthage, Mo.

CERTIFICATE OF NURSERY INSPECTION
No. 1c 92 Issued 9-27-27

This is to certify that in accordance with the provision of the Missouri Plant Act of 1925, the nursery and premises thereof belonging to H. W. Jenkins of Carthage, Mo., have been inspected by a duly authorized inspector and were found to be apparently free of injurious insects, pests and plant diseases. This certificate is not transferable and may be revoked for cause.

This certificate expires September 1, 1928.

L. HASEMAN, Chief Inspector

Terms of Sale

Cash with order or satisfactory references. When you have received your order and examined it, if it is in bad condition or not satisfactory or not as represented, repack, prepay return charges, and return at once, when your order will be either replaced or your money refunded. After plants are accepted they are yours and you must assume all risks and responsibility for failures over which we have no control. But on proof of same, will replace any trees or plants that do not prove true. We prepay all Parcel Post shipping charges. All bulky packages that go by express, charges are to be paid by the customer. The prices quoted in this list mean exactly what your order will cost either delivered at your mail box or at the express office here.

Ready to serve you,

Jenkins Nurseries,
1701 River St., Carthage, Mo.

Beautiful Lawns

It takes four things to make a pretty lawn. Green grass, ornamental shrubs, beautiful flowers, artistic arrangement and good care. Each calls for the best; we call your attention to the **ad** of O. M. Scott and Sons on the back cover page who are **Lawn Seed Specialists**. Their lawn seed is strictly first class. A No. 1 clean seed and I can recommend it to my customers as fit to go with my shrubs and flowers. When you order either direct from them or to me, please mention **this ad**.

Jenkins Nurseries.

Personal Notes

Dear Customers, Old or New:

Once more I am permitted to greet you and extend my best wishes for your success in planting Trees, Vines, Shrubs, Plants or Bulbs. Through my **Little Folder** which will tell you briefly about the different things I have to offer for sale and I hope you will not cast it aside until you have looked it over carefully and see if there is not something listed that you would like to plant.

Announcement

At the beginning I want to tell you about some changes that have been made in my business since last spring and some more that will be made in the near future. First, I have bought my son's interest and he has moved to Kansas City to engage in other work. Second, I have sold the land where my nursery stock is growing and it has to be cleared for the new owner by April. I now have no ground of my own to grow trees on and it will not pay me to lease land and continue the growing of trees. Too much hard labor and not enough pay, besides I have reached an age when it is time to retire as this springs work rounds out 40 years of nursery work, beginning at Lees Summit, Mo., in 1887, with the **Butterfield Star Nurseries**. So when the last tree goes out this spring that ends the fruit tree department. No more trees will be grown by me. **But I expect to continue the growing of Berry Plants, Shrubs and Flowers as long as I can wield a hoe.** Now some people will say or at least think, well if Jenkins is quitting the tree business it wont be safe now to buy his trees—he will now label up and sell you anything you call for. He will be dead and gone before they bear fruit so there will be no recourse. In answer to that will say **Jenkins** has done a clean business from the very start and cannot now afford to spoil a reputation for honorable dealing that has taken 40 years to build up. No, I am just as much interested

in the last tree that goes out as I was in the first one at Lees Summit 40 years ago. That it goes **bearing a label** true to name.

I hope to scatter this little bunch of trees far and wide this spring and when they come into bearing you will have something to remind you that there was one time in Missouri a man by the name of **Jenkins** who was **A Builder of Trees**, and did his best to make Missouri a better place to live in.

Wishing one and all a prosperous 1928.

Yours, H. W. JENKINS

Some Strawberries

DID YOU KNOW—There were 500 acres of Strawberries here at Carthage and vicinity that produced 79 carloads of berries, that were sold for an average price of \$3.25 per crate, bringing the sum of \$110,000 for the crop of 1927.

DID YOU KNOW—There are 210 growers members of The Carthage Strawberry Growers Association who grew these berries and that it took 2500 or more pickers to handle the crop?

DID YOU KNOW—That during the week of the peak movement of the crop that of an evening and night Central Ave, a street of Carthage that leads to the berry sheds on the Missouri Pacific Railroad tracks had a double line of trucks, cars and wagons loaded with berry crates, jammed up close together, that extended for 6 to 8 city blocks waiting their turn to unload, and on several occasions it was 2 o'clock in the morning before the last crate was in the Refrigerator car?

DID YOU KNOW—There was a solid train of berries—"The Strawberry Special" that rolled out of this Ozark country every day during the Strawberry Season and this train had the right of way over all other trains on the road?

Now the above statement of facts regarding the growing of berries here at Carthage should satisfy the most

credulous that this is the section of country that grows strawberries to perfection. We want you to **know** that the **Jenkins Nurseries** have a fine new bed of plants for their customers this coming spring that have not only been well grown but will be dug and packed and sent to you by parcel post and guaranteed to reach you in perfect condition, making good our slogan of "**Every Plant a Live One when Delivered,**" and if you are not satisfied when you receive your plants, repack them and fire them back and your money will be refunded. This is plain English and easily understood. **No Red Tape** about it.

Prices

Prices are slightly higher than some growers ask for their plants but our plants are in a class to themselves and are worth the price named or else not worth anything. Try a small order and see for yourself.

Varieties

We are growing and offering this spring four varieties that cover the season thoroughly. Plant Dunlap and Haverland for early. Aroma for medium and Gandy for late. Aroma is the main one for the Ozark section and Dunlap and Haverland for the Missouri River country. I presume that I am the first one to grow the Gandy in Missouri as I bought a dozen plants when it was first introduced by LOVETT of New Jersey about 1888 and I have kept a stock of plants ever since. It is the best late variety but has one weak point—not very productive. In every other respect it is a model berry. By planting it you can have berries a week longer than you would have without it. It is worth planting.

The Haverland is a pistillate variety that requires other varieties to fertilize the blossoms. The Dunlap, Aroma and Gandy are all staminate varieties and do not require others planted with them. All small orders go by Parcel Post, prepaid. All orders for a 1000 plants or more by express, paid by customer.

HAVERLAND— (P) Plant stocky and healthy but requires a good soil and good care, but is wonderfully productive. Sets so many berries the fruit stalks can't hold them up off the ground. For this reason in a very wet season berries will rot if not kept well picked. Berries are large, long, pointed in shape, well colored and smooth; a fine variety for home use or local market

	Per 100	250	500	1000
Price, Parcel Post prepaid	\$1.00	2.00	3.50	6.00
Price of plants Express paid by customer.....				5.00

SENATOR DUNLAP—This variety originated in Illinois. Is a strong vigorous growing plant, healthy; makes lots of runners and new plants that have long roots and it will stand more drought than other varieties. It is a strong staminate variety, a good fertilizer for the Haverland—very productive of large well shaped high colored berries. The most popular berry in central and north Missouri. You will not go wrong in planting this for home use or local market.

	Per 100	250	500	1000
Price, Parcel Post, prepaid	\$1.00	2.00	3.50	6.00
Price by Express paid by customer.....				5.00

AROMA—Plant stocky and healthy. Don't make as many runners or plants as the Dunlap, but a plenty. Berries large. smooth, conical in shape, well colored, ripens late. The Aroma is the commercial berry of the Ozarks that is shipped to New Orleans or Winnipeg, Denver or Boston by the train load. Not so productive in North Missouri.

	Per 100	250	500	1000
Price by Parcel Post prepaid	\$1.00	2.00	3.50	6.00
Price by Express paid by customer.....				5.00

GANDY—Is a strong grower. Makes long runners and lots of plants. Very large leaves and extra strong fruit stems that holds the berries well up off the ground. The berries are large, conical in shape, fine color and have a very large green cap which forms a contrast to the red color of the berries that makes a box of berries very attractive to the eye. Its only weak point is not productive. Does better the second year than the first. The best late variety.

	Per 100	250	500	1000
Price by Parcel Post prepaid	\$1.00	2.00	3.00	6.00
Price by Express paid by customer.....				5.00

Raspberries

The raspberry is held in high estimation by nearly everybody as one of the most agreeable sub-acids fruits, not only for dessert but also for making jams, jellies, sauces, etc. Succeeding the strawberry at the beginning of summer when there is little else makes it almost invaluable in supplying the table with delicacies at that season of the year.

Raspberries are divided into two families—the Blacks which propagate from the tips and the Reds from the roots.

Anthracnose, on account of so much rain the past year. This disease was unusually bad on the raspberry canes and the supply of tip plants is very short this spring.

VARIETIES

CUMBERLAND—This was called by the originator “The Business Black Cap.” It is a very productive variety, medium to late in ripening. The berries are large. Originated in the Cumberland Mountains of Pennsylvania.

	Per 25	100	500
Price for tip plants by Parcel Post--	\$1.00	2.50	10.00
Price for tip plants by Express, paid by customer.....		2.00	8.00

GREGG—An old standard late variety. Berries large and firm.

	Per 25	100
Price.....	1.00	3.00

LATHAM—A new red variety which originated in Minnesota. We planted a few of this new variety this last spring and had a fair crop of berries which is something unusual for the first year; it is a very thrifty plant and the berries large. It seems to be a very promising new variety. Worth planting. Our plants will come from Iowa this spring.

	Each	12	100
Price.....	.10	1.00	5.00

Blackberries

Are sometimes called the poor man's berry. We suppose because they are found growing wild in the woods and pastures and along the roadsides. But the number of wild berries is growing less and less each year, so the only safe plan to be sure of that blackberry jam is to plant and care for a patch of tame berries.

EARLY HARVEST—Small bushy canes, hardy and productive. Berries medium in size—always ripe at wheat harvest.

	25	100
Price.....	\$1.00	2.50

ELDORADO—A vigorous grower, strong; healthy canes. Matures the wood in good condition so does not winter-kill. Canes not much affected by Red Rust. Berries are very large, jet black and easily picked from stem. Do not ripen all at once. It is the best all round berry we have ever grown. Stock limited.

	Per 25	100
Price,.....	1.25	4.00

Currants

The best small fruit for jelly. Also fine for pies when green. The first fruit of the season ready for use.

WILDER—A fine large red variety.

	Each	10
Price, 1-year plants.....	.25	2.00

PERFECTION—An extra fine red variety.

	Each	10
Price 1-year-plants.....	.30	2.50

Gooseberries

This is a valuable berry for planting and while the berries are rather difficult to pick on account of the spines and because the berries are very acid they require lots of sugar, yet there are but few people who will pass up a piece of gooseberry pie when mother makes it.

CHAUTAUQUA—A stocky growing new variety productive of large berries.

	Each	10
Price 1-year plants30	2.50

HOUGHTON—Fast growing and very productive of medium sized berries.

	Each	10
Price, 1-year plants, No. 1.....	.25	2.00

CARRIE—(Almost Thornless) originated in Minnesota. A fine variety; vigorous grower and productive. Fruit larger than Houghton.

	Each	10
Price.....	.30	2.50

Note: All of the Currant and Gooseberry plants offered were grown at Fredonia, New York, which grows the best plants in the U. S.

Garden Roots

Asparagus and Rhubarb are two necessary things to grow in your garden. The first things ready to use in the spring at a time when people are tired of canned goods---coming before berries are ripe.

ASPARAGUS-Columbian White

	Per 25	100
Price, 2-year plants.....	.50	\$1.00

Grape Vines

Our grape display at Missouri State Fair has won many plate premiums and for four years in succession we have won first on best collection—1920-21-22-23, and the display made by my successor at Boonville won first in 1924-making five years straight. At Sedalia last year our exhibit of Jasper County grapes won second on display and first on plates of Worden, Niagra, Sheridan. (Best plate of any variety) and Concord (there were 22 entries on Concord) Our Moore's Early and Concord vines are grown from cuttings taken from the B. H. Esterly vineyard which is one of the finest in Jasper County.

CONCORD—This is the old stand-by. The standard of perfection that all others are compared to. More largely planted than all others combined.

	Each	10	100
Price, 1 year.....	.10	.75	\$5.00

MOORE'S EARLY—A large black grape. Ripens about 10 days ahead of Concord. A popular variety.

	Each	10	100
Price, 2 year.....	.20	\$1.50	7.50
Price, 1 year.....	.15	1.00	6.00

CAMPBELL'S EARLY—A large black variety that produces very large compact bunches. It is more productive and we consider it a much better variety than the Moore's Early.

	Each	10
Price, 2-year No. 1.....	.25	\$2.00

NIAGRA—A vigorous growing vine, producing very large cream-colored grapes. The most popular white variety.

	Each	10
Price, 2 year25	2.00

WORDEN—A vigorous grower productive of large well shouldered bunches of most excellent flavor. Ripens ahead of the Concord and is one of the very best varieties of black grapes grown.

	Each	10
Price.....	.20	1.50

CACO (New Red Grape)—A variety of exceptional merit. Pronounced by the best growers as one of the finest Red Grapes grown.

Shrubs and Flowers

The first **Home** we have any account of was one in a Garden that contained beautiful trees, shrubs and flowers. Everything "that was pleasant to the eye and good for food." Planned and planted by the Omnipotent hand of the Master Builder, who after he had placed his tenant ADAM in possession told him to "**dress it and keep it.**" If that was necessary in the Garden of Eden, how much more so now when the soil brings forth "**Thorns and Thistles.**" So that a man in order to own a beautiful home has to not only plant it but plant it right and then obey the Divine command of "**Dress it and keep it.**" A **Beautiful Lawn** and a **Fruitful Garden** indicate a **happy home** and is a good index into the character of its owner. Money and labor spent on shrubs and flowers is well spent and returns good interest on the investment.

We offer the following list of shrubs which are worthy of planting at special low prices.

SPIREA ANTHONY WATERER—A dwarf growing variety and a continual bloomer all summer and fall of very small, delicate pink flowers

	Each	10
Price, 18 to 24 ins.....	.50	\$4.00

SPIREA VAN HOUTI (or Bridal Wreath) This is the finest of all spireas.

Climbing Roses

CLIMBING AMERICAN BEAUTY—Heavy, strong grower, hardy everywhere. Color, rich red passing to orange. Each75

Flower Department

I am not a professional florist, but do grow in a small way some flowers, such as Gladiolus, Dahlias, Cannas, Iris and Phlox, doing this partly for my own pleasure in trying to make my home attractive and also to have a variety of things to sell to my customers.

"He planted beauty round about his door
And flowers bloomed where weeds had grown before."

Gladiolus

This is an easy flower to grow and is a most beautiful one. Nothing finer for cut flowers, all it lacks is odor. By planting at several different times you can extend the blooming season for a long period.

AMERICA—This is probably the universal favorite of the named varieties. Very vigorous, strong, healthy bulbs. White and pink.

	Each	12	100
Price for strong bulbs.....	.05	.50	2.50

VIRGINIA—A beautiful red; new variety.

Fruit Tree Department

Closing out at practically wholesale prices, I call your special attention to the remarkable testimonial of J. R. McFerron on page (19) that tells the whole story and covers my 40 years of nursery work. Honorable dealing with the first trees sold and the same can be said 40 years hence about the last trees that I send out now. This is your last opportunity to buy my growing of Fruit Trees.

Apple Trees

We have a nice small block of two and three year apples that are extra good. Straight, well branched, will be carefully graded. The 11/16 will average six to seven feet. They are true to name. You can't find better trees any place and we are offering them at **practically wholesale prices** packed and delivered at the Express office or Freight depot here. These trees were grafted on branch seedlings. Each seedling making but one graft and the same method of grafting as is used by all nurseries. There is "NO SUCH ANIMAL as a PATENT PROCESS GRAFT."

VARIETIES—Yellow Transparent, Liveland Raspberry, Chenango, Strawberry, Maiden Blush, Grimes Golden, Stayman's Winesap, Jonathan and Delicious.

	Each	10	100
Prices 3 yr. 11/16, 6 to 7 ft.	40	\$3.50	\$27.50
" 3 yr. 9/16, 5 to 6 ft.	35	3.00	25.00

Shade Trees and Evergreens

Not carrying any in stock this spring but can furnish trees if ordered in time. Prices depend on size—furnished on applications.

Read the testimonials---these people are not all **liars** or **flatterers** and if you think **they** are **forges** write to them, enclosing a stamp and find out the truth.

Meet the New Apple---the ^X Dr. Paillou

Under this title Dr. E. R. Paillou tells the story of this new variety in his recent book 'Home Town Sketches.' It seems that the doctor while working on his little fruit in Jefferson County, Missouri found four sprouts growing out of the stump of an old apple tree, coming from below the original graft. He cut out all but the most vigorous one and four years later, the new tree began to bear large beautifully red apples of surpassing flavor.

At first the doctor called it the "Red Bird," but finding this name in use, he decided to keep the name by which it was known among his friends, the "Dr. Paillou." Three years ago the doctor had us propagate a hundred trees from the original for his own orchard and for distribution among his friends.

Since the publication of the story in "Home Town Sketches," so many inquiries have been made about the new apple that the Jenkins Nursery was chosen to propagate and distribute the young trees. The doctor has stipulated that the trees be sold at a fair price and with no restrictions as to scions. There are neither royalties nor advertising campaigns to be paid for by the buyer.

The Dr. Paillou tree is a vigorous grower, has dark wood. The apple runs from large to very large in size, has juicy, white flesh and the flavor is reminiscent of the Stayman and of the old Geniton at its best. The color, however, is superior to that of both of those good apples.

Any man who wants a new fruit to bear his name to perpetuate his memory after he is dead and gone must think he has something extra good to hand down to posterity so we have confidence in this new apple. We feel that it will prove a valuable addition to the list of good varieties and take its place along the side of the famous Dr. Stayman's wine sap, and we are glad to have a part in its introduction.

But we are sorry we are having to cut out the propagation of all Fruit Trees. These are the last trees that will ever be offered for sale of this variety. Only a very few trees for sale.

Testimonials

Read this Testimonial; it tells the whole story of my life work.

Alba, Mo., 1-10-28

This is to certify that I bought a bill of 500 apple trees in the spring of 1888 from H. W. Jenkins of Lee's Summit, Mo. that were delivered by J. R. Teague of Alba. These trees were as fine a lot of trees as I ever saw. They nearly all lived and bore fruit and were true to name and made a good orchard, and some are alive today, and I am glad I can give this testimonial after 40 years since I planted them.

J. R. McFerron.

(Note) This is a **most remarkable testimonial** and is prized very highly and I doubt if there is another nurseryman in the state of Missouri who can duplicate it. Messrs. McFerron, Teague, and Jenkins met for the first time since this sale spring of 1888 on January 10, 1928. Can you beat it?

Boonville, Mo. 4-15-27

*H. W. Jenkins,
Dear sir:*

I am enclosing check for the amount of the tree order.

THOSE TREES WERE BEAUTIES and now I want some strawberry plants.

F. R. Smiley, M. D.

Blackmore Cleaning Works, Tulsa, Okla.

March 21, 1927.

H. W. Jenkins,

Dear sir:—Received my trees in good shape and they look nice.

Tulsa, Ok., 4-4-27

Have my trees all out and they are making a fine start, am well satisfied with them..

Tulsa, 4-21-27

Enclosing check for payment in full of my account. Every one of the 567 trees are alive.

H. O. Blackmore

Boonville, Mo. Fall of 27

H. W. Jenkins

Dear sir:—I want to tell you that I am well pleased with the roses I bought from you last spring. Out of the 60 plants I only lost 5; they bloomed profusely the first summer. Lots of people have admired them and asked where I bought my plants. I appreciate the fact that you always send just what you advertise.

Yours sincerely,

Julius Moebus.

(Note) Mr. Moebus has the finest rose garden in Boonville and had a fine write up in the local daily last summer.

Mo. Power and Light Co., Boonville, Mo. 3-21-27

H. W. Jenkins

Dear sir:—Shrubbery received in fine shape. Enclosed check in payment.

John G. Toennes.

Savannah, Mo. 4-12-1927

H. W. Jenkins:

Dear sir:—Trees came to hand in good shape. The best trees I ever received. I will know where to get trees next spring.

L. E. Nuchols

(Note) Mr. Nuchols trees were sent subject to inspection and approval before payment.

Looney and Bloess Lumber Co., Sedalia, Mo.

H. W. Jenkins:

It has been a long time since I gave you an order for the simple reason that your shrubs grow too well and my yard is full, but a good friend of mine wants some roses and currants, so I write you for him.

Yours very truly,

Herman E. Bloess.

Sulphur Springs, Mo., Nov. 3, 1927.

Jenkins Nurseries:

Received the trees and vines all O K and am well pleased with everything and you certainly will get a large order from me this next spring.

Adolph Brock.

Boonville, Mo. May 3, 1927

Mr. H. W. Jenkins:

Received the strawberry plants all O K. They were in fine shape and oh so strong and nice.

Your friend,

Mrs. Robert Tucker
